MASTER SESSION DOCUMENTATION • AUGUST 31, 2026

Market Earth Master Specifications

Complete Breakdown of Platform Architecture, Web App State, and Session Work

TOKEN PRICE	MARKET CAP	24H VOLUME
$0.0700	$58.22M	$0.00
Presale Benchmark	Circulating / Valuation	Pre-launch Phase

1. Executive Overview & Core Vision

Market Earth is a next-generation peer-to-peer ecosystem designed to dismantle middleman fee structures in e-commerce. Built on top of the Polygon network and anchored by **$ME COIN**, it provides unified infrastructure for commerce, logistics verification, and community governance.

2. Key Platform Features & Value Pillars

0% Seller Fees

Sellers list goods and retain 100% of their transaction value, completely bypassing payment processing and platform commission fees.

Community Free Shipping

By staking 1,000 $ME tokens, buyers unlock tier-based free shipping subsidies backed by the Foundation Pool.

Verified Escrow Smart Contracts

Funds remain secured in multi-sig automated escrow contracts until proof-of-delivery is confirmed on-chain.

Gig-Based Verifier Network

Third-party verifiers earn $5 to $1,000 per completed verification gig for inspecting physical condition and order fulfillment.

3. Tokenomics & $ME COIN Ecosystem Utility

Pillar Module	Functional Specification & Tokenomics Role
Shop & Buy	Primary settlement currency for decentralized purchases under escrow protection.
Sell & Retain	Zero-fee merchant rails allowing complete revenue retention.
Get Paid (Gig Network)	Automated delivery and verification gig payouts in $ME tokens.
Staking Program	Lock-up mechanism (1,000 $ME threshold) granting buyer perks and free shipping tiers.
Governance & Voting	On-chain voting rights for platform fee parameters, smart contract upgrades, and treasury allocations.
Foundation Pool	Ecosystem treasury dedicated to underwriting logistics costs and community rewards.

4. Ecosystem Navigation & Module Breakdown

Every nook and cranny of the Market Earth interface contains modular sub-systems:

The Pulse | ME Earth | Explore | Books | Book Timeline | Get Outside | Cosmic | People's Board | ME Buy | Learn Everything | Terms & Privacy

5. Web Application Active Launch Status

- **Launch Tagline:** "New Beginnings — July 28, 2026"
- **Presale Benchmark Price:** $0.0700 USD
- **Market Valuation:** $58.22 Million USD
- **Calendar Integrations:** Active calendar export tools for Google Calendar, Apple, and Outlook token sale event reminders.
- **Network Engine:** Polygon Blockchain
